

This risk assessment, based on the CCC model risk assessment written in August 2021, has been modified and amended to ensure that the arrangements and protocols in place are reflecting safe practice to enable school to operate safely and effectively from September 2021.

This document is based on the CCC template which is to be used to help governing bodies and headteachers develop and tailor a site-specific risk assessment in relation to infection prevention control including ongoing controls for COVID-19.

Headteachers and governing bodies are responsible for monitoring the advice and guidance available, ensuring risk assessments and safe working practices are updated where applicable and cascaded through to employees. They must ensure that compliance is monitored, and any emerging issues addressed appropriately.

This risk assessment refers to current national guidance, In the event of a conflict between school protocols and government guidance, official government guidance should be followed where reasonable and practicable.

Should a conflict arise between information in protocols and this document, this document takes precedent.

The volume of information in all the risk assessments and protocols mean that some administrative errors may be found. In this event, common sense shall prevail and latest government guidance sought to ratify any contradictions.

We will ensure that our risk assessments are shared with parents and carers, staff and unions when agreeing the best approaches for our circumstances.

This risk assessment refers to current national guidance, which is listed at the end of this document, and within accompanying guidance.

Likelihood:
 Very unlikely, e.g. 1 in 1,000,000 chance of it happening
 Unlikely, e.g. 1 in 100,000 chance of it happening
 Possible, e.g. likely to occur during standard operations
 Likely, e.g. has been known to happen before
 Very likely, e.g. it is almost certain that something will happen

Severity:
Insignificant No injury
Minor Minor injuries requiring first aid
Moderate First aid/RIDDOR reportable incident
Major Serious injury/hospital attendance
Most severe Disabling injury, long term ill-health or fatality

15-25 Unacceptable.
 Stop activity and make immediate improvements
6-12 Tolerable
 Look to improve within a specified timescale
1-5 Acceptable
 No further action, but ensure controls are maintained

| | | Severity | | | | |
|------------|--------------------|--------------------|-------------------|-------------------|-------------------|-------------------|
| | | 1 Insignificant | 2 Minor | 3 Moderate | 4 Major | 5 Most Severe |
| Likelihood | 5 Very Likely | 5 Low Risk | 10 Medium Risk | 15 High Risk | 20 High Risk | 25 High Risk |
| | 4 Likely | 4 Low Risk | 8 Medium Risk | 12 Medium Risk | 16 High Risk | 20 High Risk |
| | 3 Possible | 3 Low Risk | 6 Medium Risk | 9 Medium Risk | 12 Medium Risk | 15 High Risk |
| | 2 Unlikely | 2 Low Risk | 4 Low Risk | 6 Medium Risk | 8 Medium Risk | 10 Medium Risk |
| | 1 Very Unlikely | 1 Low Risk | 2 Low Risk | 3 Low Risk | 4 Low Risk | 5 Low Risk |
