

## OVERVIEW

This risk assessment, based on the CCC model risk assessment written in June 2020, has been updated with the arrangements and protocols that are in place and planned to enable the school to open fully from September 2020 for all students. It takes Government guidance published on 2<sup>nd</sup> July 2020 and subsequent revisions at its core, together with adjustments based on our Federation needs and taking into account additional risk control measures that we are planning to put in place.

This risk assessment has been adjusted to include the guidelines produced by CCC, and will be refined further as our approach evolves and we learn more about what we are dealing with. We will have a full library of overarching risk assessments (this Operations Risk Assessment plus Premises Risk Assessment) underpinned by detailed protocols and procedures for specific risk control measures. This library was published to staff at Solway and Beacon Hill during the summer and published to Richmond Hill staff during October 2020. Many of the protocols have been based on those developed for opening during summer term 2020 coupled with more details on how a whole school opening will be managed. These have then been refined in line with learning from the first half of the autumn term 2020.

Head teachers/ Governing Bodies are responsible for monitoring the advice and guidance available, ensuring Risk Assessments and Safe Working Practices are updated where applicable and cascaded through to employees. They must ensure that compliance is monitored, and any emerging issues addressed appropriately.

This risk assessment refers to current national guidance, In the event of a conflict between school protocols and government guidance, official government guidance should be followed where reasonable and practicable.

Should a conflict arise between information in protocols and this document, this document takes precedent.

The volume of information in all the risk assessments and protocols mean that some administrative errors may be found. In this event, common sense shall prevail and latest government guidance sought to ratify any contradictions.

Update 26 October 2020: update to information relation to ventilation within school and other revisions added in light of revised government guidance dated 20<sup>th</sup> October 2020.

This risk assessment has been further updated in light of the new government guidance and full national lockdown from 5<sup>th</sup> November 2020. It has been revised in line with guidance received on 4<sup>th</sup> November.

Update January 2021 – following national lockdown, update to mask use primarily. We are now operating a Hub in all of our schools, and specific Hub risk assessments and protocols should be read in conjunction with this risk assessment.

Update February 2021 in advance of full school re-opening on March 8<sup>th</sup>, 2021. Updates to relevant parts of this risk assessment in line with national guidance published 22/02/2021

Update March 2021 as LFT testing is taking place at home for both parents and students with effect 18<sup>th</sup> March 2021 and CEV staff can return to school from 1<sup>st</sup> April 2021.

Updated May 2021 in line with government guidance published 10/05/2021

<b>General Hazards in relation to school operations - overview</b>	<p>We follow current government guidance, HR and Public Health Guidance in arranging risk mitigation for school operations and premises risks. This includes:</p> <p><b>Prevention</b></p> <ol style="list-style-type: none"> <li>1) Minimise contact with individuals who are unwell by ensuring that those who are <b>required to self-isolate by ensuring they</b> do not attend school.</li> <li>2) <b>Ensure face coverings are used in recommended circumstances</b></li> <li>3) <b>Ensure everyone is advised to clean their hands thoroughly and more often than usual.</b></li> <li>4) Ensure good respiratory hygiene by promoting the 'catch it, bin it, kill it' approach.</li> </ol>				

	<p>5) <b>Maintain</b> enhanced cleaning, including cleaning frequently touched surfaces often, using standard products such as detergents.</p> <p>6) <b>Consider how to minimise contact across the site and</b> maintain social distancing wherever possible.</p> <p>7) <b>Keep</b> occupied spaces well ventilated.</p> <p>8) Where necessary, wear appropriate personal protective equipment (PPE).</p> <p>9) <b>Promote and engage in asymptomatic testing, where available</b></p> <p><b>Response to any infection:</b></p> <p>9) <b>Promote and</b> engage with the NHS Test and Trace process;</p> <p>10) manage <b>and report</b> confirmed cases of coronavirus (COVID-19) amongst the school community;</p> <p>11) contain any outbreak by following local health protection team advice.</p> <p>We will follow the requirements of the guidance in managing school premises and operations updated on 10<sup>th</sup> May 2021.</p> <p>All staff will receive appropriate training and updates on the measures contained in this risk assessment. Initial training on the risk assessment and measures took place prior to opening in September (via online training). Further training took place during Inset, and ongoing reminders and spot checks have taken place since then. Further training videos are available for March 2021 opening.</p> <p>We will also use as a principle the definition of a ‘contact’ to guide us as to what is appropriate in terms of social contact within school, between adults and children and adult-child interactions. This means we will ensure that, where possible, reasonable and practicable:</p> <ol style="list-style-type: none"> <li>1) We will avoid face to face contact within one metre of anyone</li> <li>2) We will avoid skin to skin physical contact</li> <li>3) We will avoid any contact within one metre of anyone else (where possible and practicable). In particular, adults will be encouraged to stay at least one metre away from others. For children that means we will space tables so that they are as far apart as is possible within the constraints of our classrooms, and that students sit side by side. Seating plans will be static in order to keep close (within 1 metre) contact to a minimum number of people</li> </ol>				
--	---	--	--	--	--

- 4) We will avoid being within 2 metres of anyone for longer than 15 minutes **in any one day**
- 5) We will avoid travelling in vehicles together, other than others in the same household

**Close contact definition:**

- anyone who lives in the same household as someone with coronavirus (COVID-19) symptoms or who has tested positive for coronavirus (COVID-19)
- anyone who has had any of the following types of contact with someone who has tested positive for coronavirus (COVID-19) with a PCR or LFD test:
  - face-to-face contact including being coughed on or having a face-to-face conversation within 1 metre
  - been within 1 metre for 1 minute or longer without face-to-face contact
  - sexual contacts
  - been within 2 metres of someone for more than 15 minutes (either as a one-off contact, or added up together over one day)
  - travelled in the same vehicle or a plane

Risk assessment and its implementation will be monitored by Senior Leaders on a regular basis, and will take account of wellbeing survey information, weekly LA infection reports and any critical incident reviews as well as internal reviews of processes, procedures and incidents.

Regular feedback will be provided to staff on the Risk Assessment Reviews (see emails, briefing notes)

This document will be provided to all staff and available on our school websites, with most current copy available from the school office / Business Manager

Single layer masks and single layer bandana-style face coverings are not acceptable. Students who do not have access at home to suitable masks can obtain one from the office.</li> <li><input type="checkbox"/> Desks will be arranged to face forwards with students sitting side by side. Wherever reasonable and practicable, older students will sit on a desk by themselves. In some rooms and for some classes this will not be possible. For some younger children, it is more appropriate for them to work on group tables, but older year groups within the Primary school will ensure desks face forwards.</li> <li><input type="checkbox"/> An 'exclusion zone' of 2m will be in place from the front of each classroom and the nearest student to allow a safe space for teachers to use. If staffing levels fall below minimum levels of one teaching member of staff per classroom needed for each bubble, plus one additional teacher, plus 2 TAs and two office / premises staff then the Local Authority will support us to enable opening where possible. In EYFS the requirements for staffing will be in line with minimum legal ratios for children to staff. 	<ul style="list-style-type: none"> <li><input type="checkbox"/> Parents/carers are not allowed in the school unless explicit approval has been given in writing by the Executive Headteacher, Head of School, Deputy / Assistant Headteacher or Executive Business Manager. In exceptional circumstances only, visitors will be allowed as long as essential protective measures are taken (wearing a mask at all times, avoiding times when students are circulating within school, using a room with an external door and using that for entry and egress, thorough cleaning before and after the meeting / visit and use of internal track and trace forms)</li> <li><input type="checkbox"/> Student 'bubbles' in place to limit contact with other groups of students as far as is reasonably practicable. Screen available for teachers desk if desired. We will ensure a 2m distance from teacher seated at desk and nearest student, where possible. 2m distancing may not be possible with younger children and other staff dealing with younger children.</li> <li><input type="checkbox"/> Children who are old enough will be supported to maintain distance and not touch staff and their peers where possible. This will not be possible for the youngest children and some children with complex needs.</li> <li><input type="checkbox"/> When staff or children cannot maintain distancing, we will reduce risks by keeping pupils in smaller, class sized groups wherever possible, while within a larger overall bubble. We will do this by keeping children in class sub-bubbles wherever possible.</li> </ul>				
--	---	--	--	--	--

- Social distancing limits occupancy in offices and staff rooms wherever possible, including provision of screens where requested. Additional space identified for staff rest areas where possible.
- Outside spaces used for learning where possible
- Outdoor equipment – taken out of use with access prevented by means of suitable barriers or cleaned after use at break/playtime and/or lunchtime. Only specific bubbles to use equipment in their outside area, no crossing of bubbles allowed. Some outdoor equipment to be provided for children to use, with strict guidelines for use (e.g. football provided, but only one ‘goalie’ allowed to touch the ball, rest only allowed to use their feet) and/or fully wiped down after each use.

**Ventilation**

- Windows will be opened AT ALL TIMES when staff and students are present in classrooms, and office, staff room and other windows will be opened when more than one individual is in the room. **In cooler weather, windows should be opened just enough to provide constant background ventilation and opened more fully during breaks (and at least once per hour) to purge the air in the space.** Internal doors should also be opened to assist with creating a throughput of air. **Diagonal ventilation points are best to ensure a throughput of air.**
- We will increase ventilation when spaces are unoccupied – during break and lunch and when room is unused windows will be left fully open unless the weather is particularly inclement, when windows will be left ajar. Heating and permitted additional clothing (in line with uniform policy) will be used to ensure temperatures are comfortable for staff and students / pupils**

**Response to any Infection**

- If Covid-19 cases are suspected or confirmed, the school will call the **Cumbria call centre** which launched on 1<sup>st</sup> June and

has been set up as a single point of contact for leaders of educational settings (including early years) in Cumbria to notify Cumbria County Council of any suspected or confirmed cases of Covid-19 in your setting. The call centre number is 0800 783 1968.

- If during asymptomatic (LFT) testing a positive test is received then a PCR test should be carried out without delay and within 2 days of positive test.
- If illness is reported by a student, either during the school day or by parent prior to absence from school the following routes will be considered when agreeing a return to school:
- Child has potential COVID-19** as ascertained by the school (i.e. coughing, fever, sense of smell or taste, other worrying symptoms in our opinion): Parent MUST arrange for a PCR test for the child. School will not accept that child back until a PCR test has come back negative and/or all Government guidelines have been followed in terms of isolation / quarantine period.
- Child has general illness symptoms** (i.e. headache, sickness, sprained ankle, period pain, cuts and grazes etc): parent to collect ASAP unless safe to remain in school. No need to remain off if well.
- If a parent calls into school** to report a child illness, the same routes above will be followed and parents advised to keep their child at home accordingly, depending on which route is followed. Usually parent reported illnesses will fall under route 2 and so child should be kept at home until their illness clears (or following normal advice, for example 48 hours clear of sickness) before being allowed back into school, unless Covid-19 symptoms are exhibited in the meantime.
- Staff should be aware** of siblings or other household members who may be attending other schools – household members should also be asked to return home and stay there for the agreed period of time. Staff should ensure primary and other schools are contacted and instructed accordingly.
- If a staff member feels unwell, they must adhere to national guidance and not come into school. Staff should seek a PCR test as soon as possible. Records to be sought of close contacts, particularly if a staff member reports symptoms. On receipt of a positive test, all close contacts within school to isolate for 14 days or as advised by PHE and CCC.**
